

Dear Partner

Due to the growth of DMB in general the amount of customer queries has also increased. Therefore we were forced to create a new 50 % position for claims and returns. Felicitas Gloor, which was supporting our Logistics Team before, has taken over this new task as of October 1st 2015. For her internal changeover DMB could gain Monika Moos as of September 16th 2015 in a quota of 70%.

Monika Moos, internally also called Momo, has many years' experience in procurement and logistic aspects worldwide.

She's been working for an American Packaging firm for several years and is used to communicate internationally.

We are pleased to have her in our DMB team and set for future modifications in worldwide logistics.

With her know-how we are well equipped for the next increase of challenging tasks.

Kind regards

Monika Hildebrand
